SUMMARY

Highly adaptable Full-Stack Developer with 3+ years of experience in PHP/Laravel. Expertise in core web (HTML, CSS, JS) and backend (PHP, MySQL) technologies, adaptable to diverse development environments. Proven rapid learner, adept at solving complex challenges and delivering quality, business-focused software. Eager to apply PHP expertise to dynamic web and e-commerce platforms.

EXPERIENCE

Eclipse DOT, Full-Stack Developer

Oct 2023 - Present

- Spearheaded development of key Laravel back-end features for DOT compliance.
- Maintained QuickBooks and Stripe integrations, enhancing application functionality and streamlining business processes.
- Automated critical server schedules & notifications, significantly improving operational efficiency and loading times by at least 30%.
- Resolved existing bugs and issues by 90%, and continuously improved the application by adding new features

Freelance Web Developer

Aug 2021 - Present

- Delivered diverse custom web solutions (PHP/Laravel, JavaScript) for multiple clients.
- Managed full project lifecycles (consultation to deployment & maintenance); core PHP/backend expertise enables rapid proficiency in various platforms and content management systems.
